PROJECTS

Portfolio

Web application created using HTML, CSS, and JavaScript in order to showcase previous projects.

<https://sperkins28.github.io/Sean-Perkins/>

Pokémon API

First web application created using HTML, CSS, and JavaScript fetching in order to display data from an open source API in a fun way.

https://sperkins28.github.io/API_1/

GIPHY API

Second web application created using HTML, CSS, and JavaScript fetching. This time with JavaScript fetching random gifs on site load.
